Our System

• Simple and Fast Authentication in Real Time (only one step)

• Scan the tag on the object. App communicates with Ei-tag server (secure connection)

• If the tag is authentic, the user sees object's additional details.

• Our underlying technology and cryptographic validation process is state-of-the-art.

• Certificate of authenticity to each label

• Standard or Customized certificates

Benefits

Counterfeiting Protection: Billions of euros are lost each year, with significant loss of revenue and credibility for brands.

Unclonable RFID tags: Assure customers of a Genuine Product.

Brand Protection: Builds trust relationships between brand and costumer.

Increases sales!

Easy incorporation on your manufacturing and supply chain!

Customers authenticate items in real time, at the point of sale.

Increases sales confidence and customer satisfaction.
